Statement of Ownership, Management and Circulation
(Required by 39 U.S.C. 3685)

1A. Title of Publication	1B. PUBLICATION NO.	2. Date of Filing
JOURNAL OF ORTHOPAEDIC TRAUMA	0 0 3 6 7 1	OCT 1, 1993
3. Frequency of Issue	3A. No. of Issues Published Annually	3B. Annual Subscription Price
BI-MONTHLY	6	$ 130 US / $ 168 FOREIGN

4. Complete Mailing Address of Known Office of Publication (Street, City, County, State and ZIP+4 Code) (Not printers)

1185 AVENUE OF THE AMERICAS, NEW YORK, NEW YORK 10036

5. Complete Mailing Address of the Headquarters or General Business Offices of the Publisher (Not printers)

1185 AVENUE OF THE AMERICAS, NEW YORK, NEW YORK 10036

6. Full Names and Complete Mailing Address of Publisher, Editor, and Managing Editor (This item MUST NOT be blank)

Publisher (Name and Complete Mailing Address)

RAVEN PRESS, 1185 AVENUE OF THE AMERICAS, NEW YORK, NEW YORK 10036

Editor (Name and Complete Mailing Address)

PHILLIP G. SPIEGEL, MD, FLORIDA ORTHOPAEDIC INSTITUTE, 4175 E. FOWLER AVE, TAMPA, FL 33617-2011

Managing Editor (Name and Complete Mailing Address)

ED BANKS, RAVEN PRESS, 1185 AVENUE OF THE AMERICAS, NEW YORK, NEW YORK 10036

7. Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given. If the publication is published by a nonprofit organization, its name and address must be stated.) (Item must be completed.)

Full Name	Complete Mailing Address
RAVEN PRESS LTD	1185 AVENUE OF THE AMERICAS, N.Y., N.Y. 10036
WOLTERS KLUWER US	[illegible]
WOLTERS KLUWER nv	[illegible] P.O. BOX 2289 [illegible] THE NETHERLANDS

8. Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1 Percent or More of Total Amount of Bonds, Mortgages or Other Securities (If there are none, so state)

Full Name	Complete Mailing Address
NONE	

9. For Completion by Nonprofit Organizations Authorized To Mail at Special Rates (DMM Section 424.12 only)
The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes: (Check one)

(1) ☐ Has Not Changed During Preceding 12 Months
(2) ☐ Has Changed During Preceding 12 Months
(If changed, publisher must submit explanation of change with this statement.)

10. Extent and Nature of Circulation (See instructions on reverse side)	Average No. Copies Each Issue During Preceding 12 Months	Actual No. Copies of Single Issue Published Nearest to Filing Date
A. Total No. Copies (Net Press Run)	2486	2817
B. Paid and/or Requested Circulation 1. Sales through dealers and carriers, street vendors and counter sales		
2. Mail Subscription (Paid and/or requested)	1839	1973
C. Total Paid and/or Requested Circulation (Sum of 10B1 and 10B2)	1839	1973
D. Free Distribution by Mail, Carrier or Other Means Samples, Complimentary, and Other Free Copies	139	139
E. Total Distribution (Sum of C and D)	1978	2002
F. Copies Not Distributed 1. Office use, left over, unaccounted, spoiled after printing	508	425
2. Return from News Agents		
G. TOTAL (Sum of E, F1 and 2—should equal net press run shown in A)	2486	2817

11. I certify that the statements made by me above are correct and complete

Signature and Title of Editor, Publisher, Business Manager, or Owner
DATE: OCT 1, 1993 212 592 7835

PS Form 3526, January 1991 (See instructions on reverse)

SUBJECT INDEX

Abstracts
Eighth annual meeting of the Orthopaedic Trauma Association, 149
Acetabulum
Acetabular fractures in the elderly: An easily missed diagnosis, 233
Cerclage wiring in internal fixation of acetabular fractures, 236
The computerized tomography subchondral arc: A new method of assessing acetabular articular continuity after fracture (A preliminary report), 402
The effect of indomethacin on heterotopic ossification following acetabular fracture surgery, 33
Muscle strength testing following surgery for acetabular fractures, 39
Surgical treatment of displaced acetabular fractures: Results of 50 consecutive cases, 28
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23
Acromion
Avulsion fracture of the coracoid associated with acromioclavicular dislocation, 381
Adolescent
Intramedullary nailing of femoral shaft fractures in adolescents, 331
Age
Age and sex as determinants of mortality after hip fracture: 3,895 patients followed for 2.5-18.5 years, 525
Amputation
Traumatic lateral scapular displacement: An expanded spectrum of associated neurovascular injury, 361
Anastomosis, vascular
Closed elbow dislocation and brachial artery damage, 558
Animal bite
Open femur fracture secondary to hippopotamus bite, 384
Ankle
Effect of axial load and ankle position on ankle stability, 72
Ipsilateral tibia and ankle fractures, 130
AO small T-plate
Anterior margin articular fractures of the distal radius, 6
Artery
Open femur fracture secondary to hippopotamus bite, 384
Aspirin
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1
Assessment
The use of resonant frequency measurements for the noninvasive assessment of mechanical stiffness of the healing tibia, 64
Avascular necrosis
Four-part displaced proximal humeral fractures: Operative treatment using kirschner wires and a tension band, 497
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23

Biomechanics
A biomechanical comparison of intramedullary nailing systems for the humerus, 367
Biomechanical testing of a new design for Schanz pedicle screws, 375
Biomechanics of pin and screw fixation of femoral neck fractures, 242
Influences of some design parameters on the biomechanics of the unreamed tibial intramedullary nail, 311
Posterior pelvic fixation using a transiliac 4.5-mm reconstruction plate: A clinical and biomechanical study, 226
The use of resonant frequency measurements for the noninvasive assessment of mechanical stiffness of the healing tibia, 64
Bite
Open femur fracture secondary to hippopotamus bite, 384
Blister
Fracture blisters: Clinical and pathological aspects, 417
Blood conservation
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47
Blood transfusion
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47
Bone
Fracture weakens ipsilateral long bones: Mechanical and metabolic changes after femoral or tibial injury in rats, 343
The holding strength of cannulated screws compared with solid core screws in cortical and cancellous bone, 450
The role of corticotomy and osteotomy in the treatment of bone defects using the Ilizarov technique, 261
Bone screw
Extraction strength of cannulated cancellous bone screws, 138
Bone transport
Bone transport with the ASIF-3M fixator for treatment of a 7-cm segmental defect of the tibia with distal runoff only in the posterior tibial artery, 286
Book Reviews
The Art and Practice of Children's Orthopaedics, by Dennis R. Wenger and Mercer Rang, 485
Atlas of Spinal Surgery, by Donlin M. Long and Paul C. McAfee, 96
Bone Grafts and Bone Substitutes, edited by Mutaz B. Habal and A. Harri Reddi, 484
Fractures of the Thoracic and Lumbar Spine, by Stanley D. Gertzbein, 97
Fundamentals of Pediatric Orthopaedics, by Lynn T. Staheli, 485
Imaging of the Spine and Spinal Cord, edited by Claude Manelfe, 96
Lumbar Disc Disease, 2nd ed., by Russell W. Hardy, Jr., 486
Lumbar Spinal Stenosis, by Gunnar B. J. Andersson and Thomas W. McNeill, 96
Microsurgery of the Cervical Spine, by Paul H. Young, 96
Occupational Biomechanics, 2nd ed. by Don B. Chaffin and Gunnary B. J. Andersson, 570
Pediatric Fractures: A Practical Approach to Assessment and Treatment, edited by G. Dean MacEwen, James R. Kasser, and Stephen D. Heinrich, 569
Pediatric Orthopaedics, by Dennis Weiner, 484
Skeletal Trauma: Fractures, Dislocations, Ligamentous Injuries (2 volume set), edited by Bruce D. Browner, Jesse B. Jupiter, Alan M. Levine, and Peter G. Trafton, 484
State of the Art Reviews: Laser Discectomies, Vol. 7, No. 1, January 1993, edited by Henry H. Sherk, 569
State of the Art Reviews: Spinal Fusion, Vol. 6, No. 3, September 1992, edited by Dieter Grob, 569
Surgery of the Foot and Ankle, 6th ed., by Roger A. Mann, M.D. and Michael J. Coughlin, 571
Techniques in Therapeutic Arthroscopy, edited by J. Serge Parisien, 571
Brachial artery
Closed elbow dislocation and brachial artery damage, 558
Brain
Functional outcome following surgical excision of heterotopic ossification in patients with traumatic brain injury, 11

Cadaver
Biomechanics of pin and screw fixation of femoral neck fractures, 242
Calcaneus
Analysis of morphology and gait function after intraarticular calcaneal fracture, 303
Canine
Histologic determination of the ischemic threshold of muscle in the canine compartment syndrome model, 199
Care map
Elderly patients with hip fractures: Improved outcome with the use of care maps with high-quality medical and nursing protocols, 428
Cartilage
An experimental model of femoral condylar defect leading to osteoarthrosis, 458
Cast
Skin surface pressures under short leg casts, 275
Chopart's joint
Chopart dislocation: A case report, 388
Clavicle
Avulsion fracture of the coracoid associated with acromioclavicular dislocation, 381
Colles fracture
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78
Compartment syndrome
Histologic determination of the ischemic threshold of muscle in the canine compartment syndrome model, 199
Complications
Direct leg lengthening, 543
Healing complications after internal fixation of trochanteric hip fractures: The prognostic value of osteoporosis, 438
Pudendal nerve palsy after femoral intramedullary nailing, 58
Surgical treatment of displaced acetabular fractures: Results of 50 consecutive cases, 28
Compression hip screw
Sliding characteristics of compression hip screws in the intertrochanteric fracture: A clinical study, 348
Computed tomography
The computerized tomography subchondral arc: A new method of assessing acetabular articular continuity after fracture (A preliminary report), 402

Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23

Condyle
An experimental model of femoral condylar defect leading to osteoarthrosis, 458

Continuous passive motion
Distal humeral replacement after failed continuous passive motion in a t-condylar fracture, 87

Coracoid process
Avulsion fracture of the coracoid associated with acromioclavicular dislocation, 381

Corticotomy
The role of corticotomy and osteotomy in the treatment of bone defects using the Ilizarov technique, 261

Cuneiform bone
Isolated fracture of the medial cuneiform, 94

Dextran 40
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1

Disability
Patient-oriented functional outcome after unilateral lower extremity fracture, 393

Dislocation
An unusual posterior fracture-dislocation of the hip, 567
Avulsion fracture of the coracoid associated with acromioclavicular dislocation, 381
Chopart dislocation: A case report, 388
Closed elbow dislocation and brachial artery damage, 558
Treatment of a central fracture-dislocation of the hip using external fixation with iliofemoral distraction, 521
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23

Economic projections
Hip fractures: An increasing health care cost, 52

Elbow
Closed elbow dislocation and brachial artery damage, 558

Electromyography
Fracture of the shaft of the humerus secondary to muscular violence, 90

Epidemiology
Limb fracture pattern in different pediatric age groups: A study of 3,350 children, 15

Erythropoietin therapy, recombinant
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47

Extremity
Effect of time delay from injury to primary management on the incidence of deep infection after open fractures of the lower extremities caused by blunt trauma in adults, 532
Limb fracture pattern in different pediatric age groups: A study of 3,350 children, 15
Patient-oriented functional outcome after unilateral lower extremity fracture, 393

Femur
An experimental model of femoral condylar defect leading to osteoarthrosis, 458
An unusual posterior fracture-dislocation of the hip, 567
Biomechanics of pin and screw fixation of femoral neck fractures, 242
Clandestine femoral neck fractures with ipsilateral diaphyseal fractures, 443
Closed interlocking nailing of femoral shaft fractures: Assessment of technical complications and functional outcomes by comparison of a prospective database with retrospective review, 118
A comparison of the strength and stability of six techniques of cerclage wire fixation for fractures, 221
Fracture weakens ipsilateral long bones: Mechanical and metabolic changes after femoral or tibial injury in rats, 343
Heterotopic ossification after femoral intramedullary rodding, 536
Intramedullary nailing of femoral shaft fractures in adolescents, 331
The lack of association between femoral shaft fractures and hypotensive shock, 338
Pudendal nerve palsy after femoral intramedullary nailing, 58
Results of Judet quadricepsplasty, 327
Retrograde reamed femoral nailing, 293
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320

Fiberglass
Skin surface pressures under short leg casts, 275

Fixation
A biomechanical comparison of intramedullary nailing systems for the humerus, 367
Biomechanics of pin and screw fixation of femoral neck fractures, 242
Bone transport with the ASIF-BM fixator for treatment of a 7-cm segmental defect of the tibia with distal runoff only in the posterior tibial artery, 286
Cerclage wiring in internal fixation of acetabular fractures, 236
Closed interlocking nailing of femoral shaft fractures: Assessment of technical complications and functional outcomes by comparison of a prospective database with retrospective review, 118
Comparison of reamed and nonreamed solid core nailing of the tibial diaphysis after external fixation: A preliminary report, 279
A comparison of the strength and stability of six techniques of cerclage wire fixation for fractures, 221
Concomitant ipsilateral intertrochanteric and subcapital fracture of the hip, 146
Distal locking screw insertion using a cannulated drill bit: Technical note, 248
Extraction strength of cannulated cancellous bone screws, 138
Fixation of transforaminal sacrum fractures: A biomechanical study, 107
Four-part displaced proximal humeral fractures: Operative treatment using kirschner wires and a tension band, 497
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78
The holding strength of cannulated screws compared with solid core screws in cortical and cancellous bone, 450
Influences of some design parameters on the biomechanics of the unreamed tibial intramedullary nail, 311
Intramedullary nailing of femoral shaft fractures in adolescents, 331
Isolated fracture of the medial cuneiform, 94
Isolated intra-articular fracture of the ulnar head, 290
Multiplane fracture of the distal humerus, 216
Partial patellectomy for patellar fracture: Tension band wiring and early mobilization, 252
Pilon fractures: Treatment with combined internal and external fixation, 489
Posterior pelvic fixation using a transiliac 4.5-mm reconstruction plate: A clinical and biomechanical study, 226
Posterior sacroiliac fixation using a sacral pedicle targeting device: An anatomical study, 514
Pudendal nerve palsy after femoral intramedullary nailing, 58
Retrograde reamed femoral nailing, 293
Segmental tibial shaft fractures treated with interlocking nailing, 468
Sliding characteristics of compression hip screws in the intertrochanteric fracture: A clinical study, 348
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320
Treatment of a central fracture-dislocation of the hip using external fixation with iliofemoral distraction, 521

Foot
Isolated fracture of the medial cuneiform, 94

Forearm
Intracompartmental pressure measurements in the normal forearm, 414

Fracture
Acetabular fractures in the elderly: An easily missed diagnosis, 233
Age and sex as determinants of mortality after hip fracture: 3,895 patients followed for 2.5-18.5 years, 525
An unusual posterior fracture-dislocation of the hip, 567
Analysis of morphology and gait function after intraarticular calcaneal fracture, 303
Anterior margin articular fractures of the distal radius, 6
Avulsion fracture of the coracoid associated with acromioclavicular dislocation, 381
A biomechanical comparison of intramedullary nailing systems for the humerus, 367
Biomechanics of pin and screw fixation of femoral neck fractures, 242
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47
Bone transport with the ASIF-BM fixator for treatment of a 7-cm segmental defect of the tibia with distal runoff only in the posterior tibial artery, 286
A case of traumatic spino-pelvic dissociation, 562
Cerclage wiring in internal fixation of acetabular fractures, 236
Clandestine femoral neck fractures with ipsilateral diaphyseal fractures, 443
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1
Closed interlocking nailing of femoral shaft fractures: Assessment of technical complications and functional outcomes by comparison of a prospective database with retrospective review, 118
Comparison of reamed and nonreamed solid core nailing of the tibial diaphysis after external fixation: A preliminary report, 279
A comparison of the strength and stability of six techniques of cerclage wire fixation for fractures, 221
The computerized tomography subchondral arc: A new method of assessing acetabular articular continuity after fracture (A preliminary report), 402
Concomitant ipsilateral intertrochanteric and subcapital fracture of the hip, 146

Direct leg lengthening, 543
Distal humeral replacement after failed continuous passive motion in a t-condylar fracture, 87
The effect of indomethacin on heterotopic ossification following acetabular fracture surgery, 33
Effect of time delay from injury to primary management on the incidence of deep infection after open fractures of the lower extremities caused by blunt trauma in adults, 532
Elderly patients with hip fractures: Improved outcome with the use of care maps with high-quality medical and nursing protocols, 428
Extraction strength of cannulated cancellous bone screws, 138
Fixation of transforaminal sacrum fractures: A biomechanical study, 107
Four-part displaced proximal humeral fractures: Operative treatment using kirschner wires and a tension band, 497
Fracture blisters: Clinical and pathological aspects, 417
Fracture of the shaft of the humerus secondary to muscular violence, 90
Fracture weakens ipsilateral long bones: Mechanical and metabolic changes after femoral or tibial injury in rats, 343
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78
Healing complications after internal fixation of trochanteric hip fractures: The prognostic value of osteoporosis, 438
Hip fractures: An increasing health care cost, 52
The incidence of osteitis in open fractures: An analysis of 948 open fractures (A review of the Hannover experience), 473
Influences of some design parameters on the biomechanics of the unreamed tibial intramedullary nail, 311
Interobserver reliability in the Gustilo and Anderson classification of open fractures, 357
Intramedullary nailing of femoral shaft fractures in adolescents, 331
Ipsilateral tibia and ankle fractures, 130
Isolated fracture of the medial cuneiform, 94
Isolated intra-articular fracture of the ulnar head, 290
The lack of association between femoral shaft fractures and hypotensive shock, 338
Late functional outcome in patients with tibia fractures covered with free muscle flaps, 123
Limb fracture pattern in different pediatric age groups: A study of 3,350 children, 15
Multiplane fracture of the distal humerus, 216
Muscle strength testing following surgery for acetabular fractures, 39
Open femur fracture secondary to hippopotamus bite, 384
Partial patellectomy for patellar fracture: Tension band wiring and early mobilization, 252
Patient-oriented functional outcome after unilateral lower extremity fracture, 393
Pilon fractures: Treatment with combined internal and external fixation, 489
Posterior pelvic fixation using a transiliac 4.5-mm reconstruction plate: A clinical and biomechanical study, 226
Resonant frequency analysis of the tibia as a measure of fracture healing, 552
Retrograde reamed femoral nailing, 293
Segmental tibial shaft fractures treated with interlocking nailing, 468
Sliding characteristics of compression hip screws in the intertrochanteric fracture: A clinical study, 348
Surgical treatment of displaced acetabular fractures: Results of 50 consecutive cases, 28
Surgical treatment of the radial nerve lesions associated with fractures of the humerus, 211
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320
Treatment of a central fracture-dislocation of the hip using external fixation with iliofemoral distraction, 521
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23
The use of double latex gloves during hip fracture operations, 354
The use of resonant frequency measurements for the noninvasive assessment of mechanical stiffness of the healing tibia, 64

Fragment size
Anterior margin articular fractures of the distal radius, 6

Gait
Analysis of morphology and gait function after intraarticular calcaneal fracture, 303

Geriatrics
Acetabular fractures in the elderly: An easily missed diagnosis, 233
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1
Elderly patients with hip fractures: Improved outcome with the use of care maps with high-quality medical and nursing protocols, 428

Hand
Nailgun injuries of the hand, 506

Hannover fracture scale
The incidence of osteitis in open fractures: An analysis of 948 open fractures (A review of the Hannover experience), 473

Head
Heterotopic ossification after femoral intramedullary rodding, 536

Health care costs
Hip fractures: An increasing health care cost, 52

Herbert screw
Isolated intra-articular fracture of the ulnar head, 290
Multiplane fracture of the distal humerus, 216

Hip
Age and sex as determinants of mortality after hip fracture: 3,895 patients followed for 2.5-18.5 years, 525
An unusual posterior fracture-dislocation of the hip, 567
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1
Concomitant ipsilateral intertrochanteric and subcapital fracture of the hip, 146
Elderly patients with hip fractures: Improved outcome with the use of care maps with high-quality medical and nursing protocols, 428
Healing complications after internal fixation of trochanteric hip fractures: The prognostic value of osteoporosis, 438
Hip fractures: An increasing health care cost, 52
Sliding characteristics of compression hip screws in the intertrochanteric fracture: A clinical study, 348
Treatment of a central fracture-dislocation of the hip using external fixation with iliofemoral distraction, 521
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23
The use of double latex gloves during hip fracture operations, 354

Histology
Histologic determination of the ischemic threshold of muscle in the canine compartment syndrome model, 199

Humerus
A biomechanical comparison of intramedullary nailing systems for the humerus, 367
Distal humeral replacement after failed continuous passive motion in a t-condylar fracture, 87
Four-part displaced proximal humeral fractures: Operative treatment using kirschner wires and a tension band, 497
Fracture of the shaft of the humerus secondary to muscular violence, 90
Multiplane fracture of the distal humerus, 216
Surgical treatment of the radial nerve lesions associated with fractures of the humerus, 211

Hyperbaric oxygen
Mycobacterium fortuitum osteomyelitis following trauma, 142

Hypotensive shock
The lack of association between femoral shaft fractures and hypotensive shock, 338

Ileum
The location of the sacroiliac joint on the outer table of the posterior ilium, 510

Iliofemoral distraction
Treatment of a central fracture-dislocation of the hip using external fixation with iliofemoral distraction, 521

Ilizarov technique
The role of corticotomy and osteotomy in the treatment of bone defects using the Ilizarov technique, 261

Indomethacin
The effect of indomethacin on heterotopic ossification following acetabular fracture surgery, 33

Infection
Effect of time delay from injury to primary management on the incidence of deep infection after open fractures of the lower extremities caused by blunt trauma in adults, 532

Interobserver reliability
Interobserver reliability in the Gustilo and Anderson classification of open fractures, 357

Intracompartmental pressure
Intracompartmental pressure measurements in the normal forearm, 414

Ischemia
Histologic determination of the ischemic threshold of muscle in the canine compartment syndrome model, 199

Joint
Chopart dislocation: A case report, 388
Isolated fracture of the medial cuneiform, 94
The location of the sacroiliac joint on the outer table of the posterior ilium, 510

Posterior sacroiliac fixation using a sacral pedicle targeting device: An anatomical study, 514

Judet quadricepsplasty
Results of Judet quadricepsplasty, 327

Kappa statistic
Interobserver reliability in the Gustilo and Anderson classification of open fractures, 357

Knee
Results of Judet quadricepsplasty, 327

Latex gloves
The use of double latex gloves during hip fracture operations, 354

Leg
Direct leg lengthening, 543
Multiple relaxing skin incisions in orthopaedic lower extremity trauma, 270
Skin surface pressures under short leg casts, 275

Ligation
Closed elbow dislocation and brachial artery damage, 558

Metallosis
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320

Monteggia injury
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84

Mortality
Age and sex as determinants of mortality after hip fracture: 3,895 patients followed for 2.5-18.5 years, 525

Muscle
Fracture of the shaft of the humerus secondary to muscular violence, 90
Histologic determination of the ischemic threshold of muscle in the canine compartment syndrome model, 199
Muscle strength testing following surgery for acetabular fractures, 39

Muscle flap
Late functional outcome in patients with tibia fractures covered with free muscle flaps, 123

Myobacterium
Mycobacterium fortuitum osteomyelitis following trauma, 142

Nailgun injury
Nailgun injuries of the hand, 506

Nailing
A biomechanical comparison of intramedullary nailing systems for the humerus, 367
Closed interlocking nailing of femoral shaft fractures: Assessment of technical complications and functional outcomes by comparison of a prospective database with retrospective review, 118
Comparison of reamed and nonreamed solid core nailing of the tibial diaphysis after external fixation: A preliminary report, 279
Influences of some design parameters on the biomechanics of the unreamed tibial intramedullary nail, 311
Intramedullary nailing of femoral shaft fractures in adolescents, 331
Pudendal nerve palsy after femoral intramedullary nailing, 58
Retrograde reamed femoral nailing, 293
Segmental tibial shaft fractures treated with interlocking nailing, 468
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320

Nerve
Surgical treatment of the radial nerve lesions associated with fractures of the humerus, 211

Nerve palsy
Pudendal nerve palsy after femoral intramedullary nailing, 58
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23

Neurovascular injury
Traumatic lateral scapular displacement: An expanded spectrum of associated neurovascular injury, 361

Noninvasive testing
The use of resonant frequency measurements for the noninvasive assessment of mechanical stiffness of the healing tibia, 64

Nonunion
Comparison of reamed and nonreamed solid core nailing of the tibial diaphysis after external fixation: A preliminary report, 279
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320

Ossification, heterotopic
The effect of indomethacin on heterotopic ossification following acetabular fracture surgery, 33
Functional outcome following surgical excision of heterotopic ossification in patients with traumatic brain injury, 11
Heterotopic ossification after femoral intramedullary rodding, 536

Osteitis
The incidence of osteitis in open fractures: An analysis of 948 open fractures (A review of the Hannover experience), 473

Osteoarthrosis
An experimental model of femoral condylar defect leading to osteoarthrosis, 458

Osteogenesis
The role of corticotomy and osteotomy in the treatment of bone defects using the Ilizarov technique, 261

Osteomyelitis
Mycobacterium fortuitum osteomyelitis following trauma, 142

Osteonecrosis
Surgical treatment of displaced acetabular fractures: Results of 50 consecutive cases, 28

Osteoporosis
Distal humeral replacement after failed continuous passive motion in a t-condylar fracture, 87
Healing complications after internal fixation of trochanteric hip fractures: The prognostic value of osteoporosis, 438

Osteotomy
The role of corticotomy and osteotomy in the treatment of bone defects using the Ilizarov technique, 261

Paralysis
Surgical treatment of the radial nerve lesions associated with fractures of the humerus, 211

Patella
Partial patellectomy for patellar fracture: Tension band wiring and early mobilization, 252

Patellectomy
Partial patellectomy for patellar fracture: Tension band wiring and early mobilization, 252

Pediatrics
Intramedullary nailing of femoral shaft fractures in adolescents, 331
Limb fracture pattern in different pediatric age groups: A study of 3,350 children, 15
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84

Pedicle screw
Biomechanical testing of a new design for Schanz pedicle screws, 375

Pelvis
Fixation of transforaminal sacrum fractures: A biomechanical study, 107
Posterior pelvic fixation using a transiliac 4.5-mm reconstruction plate: A clinical and biomechanical study, 226

Pilon fracture
Pilon fractures: Treatment with combined internal and external fixation, 489

Pinning
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78

Plaster
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78
Skin surface pressures under short leg casts, 275

Polytrauma
Retrograde reamed femoral nailing, 293

Quadricepsplasty
Results of Judet quadricepsplasty, 327

Radial nerve
Surgical treatment of the radial nerve lesions associated with fractures of the humerus, 211

Radiology
Analysis of morphology and gait function after intraarticular calcaneal fracture, 303

Radius
Anterior margin articular fractures of the distal radius, 6
Fractures of the shaft of the radius after treatment of Colles fractures with pins and plaster or external fixation, 78
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84

Rat
Fracture weakens ipsilateral long bones: Mechanical and metabolic changes after femoral or tibial injury in rats, 343

Reduction
Unrecognized posterior dislocation of the hip associated with transverse and T-type fractures of the acetabulum, 23

Rehabilitation
Muscle strength testing following surgery for acetabular fractures, 39

Resonant frequency analysis
Resonant frequency analysis of the tibia as a measure of fracture healing, 552

Rod
Heterotopic ossification after femoral intramedullary rodding, 536

Sacroiliac joint
The location of the sacroiliac joint on the outer table of the posterior ilium, 510
Posterior sacroiliac fixation using a sacral

pedicle targeting device: An anatomical study, 514

Sacrum
Fixation of transforaminal sacrum fractures: A biomechanical study, 107
Posterior pelvic fixation using a transiliac 4.5-mm reconstruction plate: A clinical and biomechanical study, 226

Scapula
Traumatic lateral scapular displacement: An expanded spectrum of associated neurovascular injury, 361

Schanz pedicle screw
Biomechanical testing of a new design for Schanz pedicle screws, 375

Screw fixation
Distal locking screw insertion using a cannulated drill bit: Technical note, 248
The holding strength of cannulated screws compared with solid core screws in cortical and cancellous bone, 450
Isolated intra-articular fracture of the ulnar head, 290
Multiplane fracture of the distal humerus, 216
Posterior sacroiliac fixation using a sacral pedicle targeting device: An anatomical study, 514
Sliding characteristics of compression hip screws in the intertrochanteric fracture: A clinical study, 348

Sex
Age and sex as determinants of mortality after hip fracture: 3,895 patients followed for 2.5-18.5 years, 525

Shoulder
Double disruptions of the superior shoulder suspensory complex, 99

Sickness impact profile
Patient-oriented functional outcome after unilateral lower extremity fracture, 393

Skin
Fracture blisters: Clinical and pathological aspects, 417

Spino-pelvic dissociation
A case of traumatic spino-pelvic dissociation, 562

Step-off injury
An experimental model of femoral condylar defect leading to osteoarthrosis, 458

Superior shoulder suspensory complex
Double disruptions of the superior shoulder suspensory complex, 99

Synovium
Synovial metallosis resulting from intraarticular intramedullary nailing of a distal femoral nonunion, 320

Tarsometatarsal joint
Isolated fracture of the medial cuneiform, 94

Thromboprophylaxis
Clinical efficacy of aspirin and dextran for thromboprophylaxis in geriatric hip fracture patients, 1

Tibia
Bone transport with the ASIF-BM fixator for treatment of a 7-cm segmental defect of the tibia with distal runoff only in the posterior tibial artery, 286
Comparison of reamed and nonreamed solid core nailing of the tibial diaphysis after external fixation: A preliminary report, 279
Fracture weakens ipsilateral long bones: Mechanical and metabolic changes after femoral or tibial injury in rats, 343
Influences of some design parameters on the biomechanics of the unreamed tibial intramedullary nail, 311
Ipsilateral tibia and ankle fractures, 130
Late functional outcome in patients with tibia fractures covered with free muscle flaps, 123
Resonant frequency analysis of the tibia as a measure of fracture healing, 552
Segmental tibial shaft fractures treated with interlocking nailing, 468
The use of resonant frequency measurements for the noninvasive assessment of mechanical stiffness of the healing tibia, 64

Timing
Effect of time delay from injury to primary management on the incidence of deep infection after open fractures of the lower extremities caused by blunt trauma in adults, 532

Transfusion
Blood transfusions in hip fracture patients: Implications for blood conservation programs, 47

Trauma
Acetabular fractures in the elderly: An easily missed diagnosis, 233
A case of traumatic spino-pelvic dissociation, 562
Double disruptions of the superior shoulder suspensory complex, 99
Effect of time delay from injury to primary management on the incidence of deep infection after open fractures of the lower extremities caused by blunt trauma in adults, 532
Fracture blisters: Clinical and pathological aspects, 417
Functional outcome following surgical excision of heterotopic ossification in patients with traumatic brain injury, 11
Multiple relaxing skin incisions in orthopaedic lower extremity trauma, 270
Mycobacterium fortuitum osteomyelitis following trauma, 142
Traumatic lateral scapular displacement: An expanded spectrum of associated neurovascular injury, 361

Trochanter
Healing complications after internal fixation of trochanteric hip fractures: The prognostic value of osteoporosis, 438

Ulna
Isolated intra-articular fracture of the ulnar head, 290
A type IV Monteggia injury with a distal diaphyseal radius fracture in a child, 84

Vascular anastomosis
Closed elbow dislocation and brachial artery damage, 558

Vein grafting
Closed elbow dislocation and brachial artery damage, 558

Wire fixation
Cerclage wiring in internal fixation of acetabular fractures, 236
A comparison of the strength and stability of six techniques of cerclage wire fixation for fractures, 221
Four-part displaced proximal humeral fractures: Operative treatment using kirschner wires and a tension band, 497
Partial patellectomy for patellar fracture: Tension band wiring and early mobilization, 252

Wound closure
Multiple relaxing skin incisions in orthopaedic lower extremity trauma, 270
